## General Comment

Good

accepted way of doing things. NSF has not shown that there is proven desire to further formalize things. Other countries have adopted our procedures as 'best practices'. For the NSF to step up and say – we can improve the system now is both unnecessary and likely to trigger a massive blow back.

With what is happening in DC these days, there are much more important areas to pick a fight.

John Fraser, President, Burnside Development & Assoc, LLC and a former President of AUTM. The views above are mine and do not necessarily reflect thinking at AUTM.
