General Comment

Precise Measures for AI Dominance

1. Quantum Computing Integration

- Invest \$10 billion in developing quantum computers specifically for AI applications by 2027
- Establish at least 3 national quantum computing centers specializing in AI algorithms

2. Specialized AI Education

- Introduce a nationwide AI curriculum for schools starting from the 6th grade by 2026
- Create 100,000 new AI-specific study places at U.S. universities within the next five years

3. AI Ethics Commission

- Establish an independent national AI Ethics Commission by the end of 2025
- Develop binding ethical guidelines for AI development and deployment by mid-2026

4. International AI Alliance

- Initiate an "AI Alliance" with at least 20 leading democracies by 2026
- Invest \$5 billion annually in joint research projects within this alliance

5. AI Infrastructure Offensive

- Expand the 6G network with a special focus on AI applications, covering 80% of the population by 2028
- Construct 50 new AI-optimized data centers across all U.S. states by 2027

6. AI Start-up Ecosystem

- Provide a \$50 billion fund to support AI start-ups by 2026
- Establish 10 AI innovation zones with tax incentives and specialized infrastructure by 2027

7. Industry-Specific AI Integration

- Mandate AI strategies for all Fortune 500 companies by 2026
- Offer \$20 billion in state funding to integrate AI into traditional industries by 2028
