General Comment

Create a.i. to sniff out high IQ and merit the finances to support high IQ people since somehow low IQ and or narcissists make it into leadership positions in business and end up squashing high IQ talent.

Since many people need therapy but refuse to go to therapy or lack the self awareness of their need for therapy, utilize surveillance a.i. in social media newsfeeds and ad space to serve people relevant material to treat their mental illness and put society into a self improvement loop to accelerate innovation.
