General Comment

I'm strongly urging that while innovation shouldn't be tethered that copyright holders should still be protected under law. Are we not entitled to keep ownership of our property? Our copyright?
If ai is given free rein we will see consequences beyond our imagination unfold. I voted for you Mr. President, to keep Americans first. American jobs first. By giving control to these ai companies, millions of jobs will be lost. Please keep us, the American people, in mind and continue to uphold the copyright law that protects our works.
Thank you.
