General Comment

ART SHOULD NEVER BE AUTOMATED. Gen AI sucks the soul out of art. Paintings, Photography, film, music. All of is a deep communication between humans. It can display shared experiences we all go through, or give a perspective that the viewer/listener has never thought of. And the laboring process that artist go through to create is not a nuisance that should be replaced by the click of button. The skill and labor breaths life into it, and any creator worth their salt would agree. DO NOT ROB ART OF THE SOUL AND PASSION CREATORS PUT INTO IT. Automation by a machine does that very thing. And if you do that then there isn't a point. Life is bankrupt of intrigue, joy, and creativity in a world like that.
