As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m89-p906-x7um
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001
Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-1702
Comment on FR Doc # 2025-02305

Submitter Information

Name: Jeremy McKenzie
Email: [REDACTED]

General Comment

What is currently being called Artificial Intelligence is certainly artificial but not intelligent. This system, as currently constituted, grabs all the information that can be fed to it, and spits it back out based on the probability that one word will follow the next based on whatever query has been submitted to it.

It can also be wrong, and confidently so. And if you have no idea what the answer is to the query you're submitting, you will be vulnerable to this algorithm when it is wrong, because it will be wrong.
