Email: [REDACTED]

General Comment

This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be

reused by the government in developing the AI Action Plan and associated documents without attribution.

It seems AI is another way of taking away skilled jobs. If we are looking to keep jobs alive, AI will be taking them. Our arts will not progress as it grows. If we make rules around when AI can be used and restrict it, we are protecting small businesses and jobs alike, which would stimulate the economy more. The American Dream is being able to do what you want; we do not need something inhuman taking that dream from us.
