Document: NSF_FRDOC_0001-DRAFT-1807

Comment on FR Doc # 2025-02305

Submitter Information

Name: Daniel William

General Comment

As a member of a technology research initiative, I can say that generative AI is a dead end and a terrible use of US public resources. REDUCING the burden of proof on corporations attempting to use it (as so many currently are to no end with disastrous effects on their products and public image) is contrary to the desires of Americans, and certainly not for America's benefit.
