Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-1868

Comment on FR Doc # 2025-02305

Submitter Information

Name: Kay Granger

General Comment

AI infringes on copyright in its training data and requires greater regulation. This is very important. My own livelihood is at risk, and many of those I know of something is not done.

AI should not be used so widely until its environmental impacts are mitigated. Right now it is bulky and inefficient and harms both individuals and the planet.
