General Comment

As an author video game writer, and that is harder work than most people realize. Compared to my years working on my feet as a waitress and as a bouncer and later in construction, the hours are longer and the training a lot more difficult.

Stealing all that hard work from me to train a robot that can't even throw together a decent story isn't just theft, it's stupid. The government is letting a fast-talking, slimy conman rob the public.
