General Comment

As an artist and a scientist the copyright protections on my intellectual property are incredibly important to me. I spend days, sometimes months and some people spend years working on research or art pieces. A little piece of me is put into every project I do. Using my copyrighted projects to train AI is theft. It is no different from if a person decided to plagiarize my work to make their own. AI cannot be allowed to steal from millions of artist's, writer's, musician's, and researcher's intellectual properties. And this doesn't just apply to small artists or research teams. AI would steal from billion dollar companies to plagiarize their work. DO NOT GIVE AI COMPANIES AN INCH ON THIS. THIS IS OUR PROPERTY AND WE DO NOT CONSENT TO IT BEING USED TO TRAIN AI.
