General Comment

I am an artist and art is my only source of income. I've spent my life, over 30 years, dedicated to honing my skills. I've developed debilitating conditions from working. I've sacrificed my body to my art. I don't regret that, because I am An Artist.

I did not work so hard, sacrifice so much, and dedicate my life to AI. So that my work could be stolen by GenAI scraping against my will, without my consent, to have other profit from my labor. To have those that have never toiled a day in their life to profit from everything I've done and worked for.

This absolutely cannot pass. This is unacceptable. This will destroy even more than what has already been.
