Document: NSF_FRDOC_0001-DRAFT-2217
Comment on FR Doc # 2025-02305

Submitter Information

Name: Calais Clark

Email: [REDACTED]

General Comment

AI is absolutely useless. It's a waste of energy. Have you all never used a chatbot and noticed how it's just an amalgamation of the information that's fed into it. We already have the internet and human experts that can give actually useful answers. To replace them with a chatbot is utterly destructive to the United States. In fact it would seem that nearly all federal initiatives lately are aimed to weaken and destroy the United States, my homeland.
