Document: NSF_FRDOC_0001-DRAFT-2244

Comment on FR Doc # 2025-02305

Submitter Information

Name: Anon Ymous

General Comment

I believe the ramifications of generative AI, especially generated freely with no regulation on what can be fed into it, is a massive danger to society. We have already seen it in the most heinous way, generating pornographic content based on real people, without their consent. Additionally, as it stands, AI generation is focused and cannot function without theft from other's works.
