General Comment

Hello,

This bill should not pass for the great devastation and limitation it would bring to the public in creative direction and public information. We can't allow such AI to take control of these fields or be given the freedom to take from whomever or why.

Trump and his administration has proven they can't be given control or allow such control with AI on data or freedom of it, with seeing the current poor decisions being made in our economic government.

This bill shouldn't pass for how it would negatively affect our creative endeavors and the tread forward in our artistic works and presentations to the public. Do not let this bill pass. It will not go down the way you think it will if it does.
