

PUBLIC SUBMISSION

As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m8a-kmqw-ezet
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001

Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-2344

Comment on FR Doc # 2025-02305

Submitter Information

Name: Evelyn Chang

General Comment

Artificial intelligence (AI) models should not be allowed to train on copyrighted material. Regulations should be put into place to prevent unfair use of copyrighted material through AI model training. Additionally, regulations on the use of generative AI to produce content/media in the likeness of a real person should be put in place.

On all platforms, the use of AI should be transparent and AI-generated images or content should be clearly marked as such. This is especially important in educational settings, where students and children can be exposed to misinformation. Platforms should also have a built-in option to opt out of seeing AI-generated content.

As the use of AI, and particularly generative AI, consumes a large amount of energy, more environment-friendly alternatives should also be investigated.
