General Comment

The entire premise of AI, specifically gen AI, in regards to images, music, and writing is based on the creation of works previously. After which the people who worked so hard to hone their skills and dedicate day in and day out to become masters of their craft - have their works stolen.

We are not compensated in any way for the work that is stolen from us. We are not credited. And the only people that benefit are the companies that make AI.

Imagine someone stealing food from farmers, breaking in, destroying a store for kitchen supplies. Then Kidnaps a chef. Putting to use all the stolen goods and the chef who will not get paid. The only person getting paid is the thief.

That is what AI is done. We CANNOT, give AI anymore leeway. They cannot continue to steal from the hard work of the American people. And the administration cannot give this to them. Please do not push this executive order.
