As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m8a-mel5-j522
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001

Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-2466

Comment on FR Doc # 2025-02305

Submitter Information

Name: Sare Webster

General Comment

I have seen no evidence that AI based industries or decisions are making American corporations more profitable and better functioning. To date, incorporation of AI appears to have entered the private sector solely to justify layoffs and provide worse service to customers and users of government services. AI training has been accomplished primarily with theft of online resources and AI proponents have seen no accountability for this action. I do not support any government investment in AI resources without FIRST creating laws for energy management strategies and systems for the enormous power requirements of AI data centers and creating protection and laws for sale and license for creative industries that have been robbed for years by AI companies scraping the internet.
