Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-2514
Comment on FR Doc # 2025-02305

Submitter Information

Name: Hunter Miche

General Comment

Artificial intelligence servers not only steal massive amounts of data from actual talented artists, making use of their own content without their consent, they also allow companies to stiff voice actors, writers, normal actors, and more out of their jobs because it is "cheaper". The amount of energy required to power AI generators is also massive amounts of water and electricity, which can harm the environment.
