General Comment

AI has no place in government, it is a theft engine that will put vulnerable information at further risk. It has no benefit and is all cost.

It is used to steal copywritten works, plagiarizes protected properties, and siphon everything from humans.

It deserves no exemptions or placement in the government, and must be reigned in at every corner.

The government works for the people and it is your job to shutter any further theft from criminal enterprises and their "AI" spyware.
