General Comment

I do not want large language models or artificial general intelligence being developed any further, I have concerns about the way copyrighted material and the works by independent writers, artists and journalists become folded into these machine systems to serve as material which becomes used by larger agencies, businesses, corporations and organizations for their profit. Additionally, I believe these technologies take away the most important thing from ourselves: our human desire to create. I do not support this technology and I would like to see it cease development.
