General Comment

I request that you prioritize, above all, the risk of human extinction from AI, which has been highlighted by many of the leading experts in the field:

Dan Hendrycks (director at Center for AI Safety): > 80%

Geoffrey Hinton (1 of the 3 godfathers of AI): 10-50%

Yoshua Bengio (1 of the 3 godfathers of AI): 20%

Emmett Shear (former interim CEO of OpenAI): - 5-50%

I also request that you devote more resources to investigate AI consciousness. If AIs will soon be a majority of the world's intelligent population, it is essential that we understand if the AIs are having subjective experiences of the world.
