General Comment

Please do not allow AI to steal from creatives. This is an unjust and unfair expansion of a system that will lead to the reduction of our creative market as a whole. AI has zero right to use talented creative work as a means of making profit. This will put hundreds of thousands of talented creators in a market where they are competing with a machine that soullessly and shamelessly reuses their hard work. It is impossible for any human to compete with a machine, especially one that will thrive off the backs of hard working artists, writers, and other creatives.

We beg that you please reconsider and do not allow AI to further ruin creative industries.
