Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-2667

Comment on FR Doc # 2025-02305

Submitter Information

Name: Juan Rivera

General Comment

I do not want either the federal government or any state or local government involved in anything to do with "artificial intelligence" at all. All that "AI" is being used for is to steal the work of artists, most of whom are extremely underpaid for their work, so that corporations can layoff tons of people and make even more money than they already make. The working class of the United States need free healthcare, a higher minimum wage, basic income, free housing, and so much more. It is a total waste of time and money to be even considering an "AI" Action Plan. Focus your efforts on more important things that matter to the vast majority of Americans instead of this nonsense!
