General Comment

AI to this unrestricted degree is NOT where our country and technology should be heading. It does not hold a place in the future of the US. This is not the great leap into a brighter tomorrow the sponsors behind this act want to make it out to be. What this is, is the replacement and theft of real human-made work just to line the pockets of big corporations. AI steals from my livelihood as an American and profits off of this theft.

AI is overhyped and is fleecing the eyes of the American public. Do not let ourselves be fooled
