## General Comment

I do not think AI has a future in our country nor do I want to see artists having their hard earned work, time, efforts, and skill trained on and spat out by machines. I want to view and read works created by human hands as god intended. A machine will never replicate the depth of human emotions and experiences, and I am tired of cheap imitations flooding flooding the American people's choices. AI has no future, reject this plan at once.
