Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-2764
Comment on FR Doc # 2025-02305

Submitter Information

Name: Marquis Lewis

General Comment

Artificial intelligence should not be allowed to use any copyrighted material as training data. When a person uses material for training, they are not allowed to profit off the training material. AI is using the training material in order to make profit while using the copyrighted materials without any significant change that would qualify as fair use. If AI wishes to use copyrighted materials, they should need to license that material, including payment if that is what the copyright holder wishes.
