General Comment

I am here to plead to you all to keep OpenAi out of artists' work and to not let them train their machines on any kind of work without the proper consent.

Why you may ask?

I do not believe AI holds a place in the future of the US because it has misled the people more than inform them.

AI steals from my livelihood as an American and profits off of theft. I'm not a rich person, in fact I work below poverty but I pay my taxes and having some machine come into my place of work and replace a human touch is absolutely evil. To quote Charlie Chaplin, "Greed has poisoned men's souls. Has barricaded the world with hate. Has goose stepped us into misery and bloodshed."

And most of all...AI is overhyped and is fleecing the eyes of the American public. It cannot do what humans can, only mimic them. We crave connections, not machinery.
