General Comment

I am an associated commissioner to a plethora of individual small business-owners in the digital graphic art space. Almost all of these individuals face some form of economic harm caused to them by the illegal use of their artworks by Generative AI algorithms, and that harm is felt every day. Allowing Big Tech to further scrape copyrighted works in their algorithms will CAUSE IRREPARABLE HARM TO THE ENTIRE GRAPHIC ART INDUSTRY. We MUST follow our CURRENT LAWS to protect the stability of one of America's most cherished creative industries.
