General Comment

Generative AI from corporations such as OpenAI and DeepSeek have no place in the future of the US.

These companies will scrape data not just from public sources, but closed sources as well.
Allowing OpenAI unrestricted access will allow them to collect data from classified documents and nodes, putting our national security at risk.

Our democracy has already been compromised twice.
Cambria analytics in 2016 and in 2024 with generative AI political ads.

If you truly support freedom, you will not let this pass.
