General Comment

Do not let OpenAI use copyrights material to train their AI, it is STEALING! I don't think AI has a place in the future of the U.S, I think it is a major threat. It steals jobs, it steals copyright material, it consumes so much energy. And it doesn't even work, it tells people to eat glue, and that poisonous mushrooms are edible, because it doesn't have any knowledge, it's just a glorified autocomplete. It is a scam.

Some people in Government want to implement it to control very sensitive sectors, and it will cause those systems to fail, because again, OpenAI's 'AI' doesn't actually know anything. If anything, AI should be outlawed and Open AI should be shut down or banned from Government affairs.

OpenAI steals from the livelihood of Americans and Profits off theft, it is a danger to the systems that run our government, and the hundreds of millions of people who rely on those systems. You cannot possibly support that.
