General Comment

Hello, I am asking you to please oppose this ruling; not only this takes away the right of property for one but this also takes away Copyright law, intellectual property rights, and takes away the freedom of speech to request anything to be returned and taken down to what the owner created, written, et cetera to be taken away, and it steals jobs.

Therefore, I do not believe AI holds a place in the future of America for a good benefit, it all promotes and profits off from theft from the livelihoods of citizens, which is very unlawful.
