Document: NSF_FRDOC_0001-DRAFT-3089
Comment on FR Doc # 2025-02305

Submitter Information

Name: Daylon Russell

General Comment

AI current most recent uses do not support what is best for all of America. It actively is used to minimize human influence in several work, social, and political spaces. The regulation required to reign in these careless use of AI should be in the best interest of the people. As it stands all it has done is harm more people, and the environment.
