General Comment

I hope this passes! I can't wait for less restrictions on AI so I can generate all sorts of fun images of elon musk and Trump in compromising and embarrassing situations. All this caution and regulation on it prevents that and its a real shame. I can't wait until it is developed you can't tell whats real or not anymore and that includes things like Trump streaking across the whitehouse lawn or Musk stealing top secret documents to fuel his ketamine habit.
