General Comment

I oppose this action plan. I do not believe AI holds a place in the future of the US.

AI steals from my livelihood as an American and profits off of theft. I do not consent to my data as an American to be scraped and used in an AI database, my data and personal works are my own and to scrape them would be infringing on my work hindering my business prospects. I also believe the utility of AI is overstated, especially in relation to the damages it will inflict upon United States citizens.
