General Comment

Do not. It is as simple as that.

This use of artificial intelligence generation has zero future in this country. ZERO. Any attempts to establish otherwise will be met with either colossal failure or the complete collapse of the copyright system. Beyond that, it is ASTOUNDING that THIS is what you have chosen to waste time, attention and money on. Out of all the current issues you have nominated to approach in this failing joke of a country, this was it. What a disgrace to this nation.
