Document: NSF_FRDOC_0001-DRAFT-3304

Comment on FR Doc # 2025-02305

Submitter Information

Name: Jake Messick

Address:

General Comment

I work for the George Washington University in a position responsible for the college's supercomputers. AI is an incredibly resource hungry, morally grey technology that cannot and should not steal from copyritten material to the benefit of shareholders at the expense of the average person. Do not allow this to continue, as giving a blank cheque here is a slippery slope.
