General Comment

Hello! I am a digital artist who works in the sphere of 2D design and iconography. I work as a self-employed freelance creator on this material and am very much impacted by the use of AI in our modern time.

AI-generated imagery and material unlawfully violates the copyright of so many creators' content every day, and takes away money from living, breathing Americans such as myself. I am against generative AI with every fiber of my being. Please do not give it any more infrastructure or even acceptance. I vote with this in mind.
