General Comment

AI is not cool it is basically stripping the joy and creativity from actual artists and people can just type in a few characters and boom a image pops up and people say they created it and I don't know for sure but it probably is taking others art and putting it though something else and when new people try to make something they saw on there and follow the steps for it, it doesn't even turn out CLOSE to what they saw and they would probably feel discouraged or feel angry or upset at them selfs and it's because they can't recreate something that a ai made and they did not know it it's ruining artist because they don't feel acknowledged for the time and effort they put into something and they people who just used ai is getting most and probably all the credit and if they keep doing that it will probably ruin the life's of people who make and sell art for a living will get there life's ruined and newbies who want to try it out will get discouraged so please try yalls best to remove it, it's hurting more people. Thank you for reading and understanding this
