General Comment

I do not believe that AI should be allowed to steal from the American people. Whether it be art, writing, or anything else that we as Americans create with our own thoughts and ideas. AI should not be above the law. It should not be allowed to steal. It should not have a place in the future of America. If AI is allowed to steal from the American people, it will destroy the lives of many Americans. If AI is allowed to steal from the American people, you are telling the American people that they do not matter and that you don't care if they are hurt by it. Do not allow AI to bypass the law and copyright. AI is overhyped and should have no business in the lives of the American people.
