General Comment

AI is a plagiarism machine, and the use of it is deeply unethical.

And if you don't care about that, AI is also extremely bad for the environment.

And if you don't care about that, AI is simply bad at what it does. It's an over-exaggerated next-word guesser. It has a tremendously high failure rate, and will confidently lie to your face.

And if you don't care about that, then you're a fool.
