## General Comment

Having the ability to copy anyone's work regardless of who they are or how they created it (except for ai itself of course) needs to have consequences, having someone with the power to copy someone's work to any percentage should not be allowed in any way shape or form, that is plain theft which is against the law, it being digital shouldn't matter and it hasn't for years, changing the plans of ai to allow this will have unforeseen consequences that could alter human history no other way than negatively! Please revoke this bill and bar it from entering circulation again, this is coming from an artist myself, do not allow this bill to proceed, it will ruin artists lives for the foreseeable future, ruining lives of work and talent for people who couldn't be bothered to make the art themselves, its unfair, unjust and plain crooked as far as most of us real artists are concerned!
