## General Comment

Please vot no on this bill that will allow ai comoanies to steal from the hard working people creating art or writing. To allow ai to bypass copyright laws is a blatant spit in the face of the copyright itself. At that point get rid of copyright laws entirely. Ai is also overhyped, to allow this to pass is the government condoning theft. This is jot to mention the massive security concerns ai creates and that ghe ai market is highly speculative. I would hate to see tax payers dollard be used to pass something like this that will steal and steal until theres nothing left just for a quick buck. Generative ai should not be a part of america's future and this bill is an insult to all american who have a soul
