General Comment

AI has no place in the government and AI has no place in art.

The only thing AI enabled people to do is fraud and stealing, this is plain and simple. This only serves to line the pockets of the wealthy and steal from everyone else with abandon.

This will destroy the art and culture in the United States as every piece of media and art will but put through the plagiarism meat grinder that is AI.

If you care about art, if you care about the pictures the memories you posted online and don't want that to be abused and reduced to someone's profit without your consent. You cannot let it pass.

Protect the culture, protect the arts.
