General Comment

As a working artist, AI steals and profits off of my labor without consent from or compensation to me. AI is built off the backs of hardworking Americans without having to pay them a dime for their efforts. Furthermore, it discourages people from thinking, learning, creating, and writing on their own. It is a tool to atrophy the creativity, intelligence, and innovation of Americans minds by discouraging people from exercising their own ability to think and create. It has no place in America, and serves no one but the ultra wealthy seeking to devalue the labor and skills of the average person without needing to compensate or even credit them for their efforts. AI can only do harm.
