General Comment

As an author, artist, and scholar, I object in the strongest possible terms to the unauthorized use of *anyone's* work for the purpose of training or otherwise providing content for so-called "AI." The multi-billion dollar companies do not need the protection of the federal government to properly license creative works in order to distribute products, nor do they deserve more leeway for unauthorized usage of copyrighted works than your average American.

This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.
