General Comment

please don't go through with this. generative ai is theft. it is putting people out of work, and it doesn't even do a good job. it often produces asinine drivel that only looks good in passing and doesn't hold up to scrutiny. this is true of both generative imaging and LLMs. please i am a citizen and i am begging you to put a stop to this madness. things are already bad enough, we don't need this too!
