General Comment

AI is trained on artwork effectively stolen from creators. It is unethical to continue to allow these programs to scrap art, writing, and more without the consent of the original creators. Not only that, but the amount of water used to cool the servers AI uses is tremendous and should not be allowed. The planet is low if resources as it is, and using that amount of water for nothing but cooling machinery is also unethical. Please do not grant OpenAI or any other AI programs the ability to legally train on art that does not belong to them.
