Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-3700
Comment on FR Doc # 2025-02305

Submitter Information

Name: Destiny Given

General Comment

I am asking you to not let OpenAI to use copyrighted material to train their AI. It is theft and should be treated as such. AI has no place in the future of the US—in fact, it will only make things worse. It steals jobs, it takes up precious resources, and consumes so much energy. All generative AI and similar things do is ruin what makes the US good—it's opportunity and resources, the things that people and countries look up to the US for. It does nothing but hurt national security, too, when it's expected to manage sensitive sectors. You cannot possibly want to side with something that is blatant theft and an irreversible act that can ruin the integrity of the entire nation.

Please stop OpenAI from doing this. No one wants this. No one wants to support theft. No one wants to so blatantly steal the jobs of hard working and honest Americans. No one wants to be a part of taking up resources and doing even worse things for the environment. And I hope you don't either, and instead choose to STOP THIS and—even better—BAN the use of generative AI in ANY GOVERNMENT CAPACITY, hopefully even ban it on a NATIONAL level.
