General Comment

The American People do not want AI
The American People do not NEED AI
The American People's NEEDS should come before the WANTS of a company.
It is unacceptable that generative AI is getting allowances to steal the works of people and the American People are having rights stripped away on a daily basis.

There is no good reason for this order. It is all about Trump getting more pocket money from companies so they can make more money with no regulation.

The American People are suffering and the billionaires are thriving and things need to change.
